amx replaces it • Much more, please explore the script! Added Features (2 0): • Added a streaming objects function.. This amazing script was made by Calgon Added Features: • Whirlpool Password Encryption • LSPD Parking Lot Gates • Tons of vehicles added to the dealership • About 300 houses added around Los Santos • Dynamic Gas Stations • Fuel System • - Player vehicles' fuel save, however group vehicles spawn with 100 fuel • - Random 'drop car' vehicles without groups spawn anywhere inbetween 10-30 fuel..) • Added a pizza boy job • Added a taxi job • (Again, still think a few things are iffy with this system) • Probably a lot more.

Note: There may be some wierdly named zips in the file, but these are just backups of some files and I forgot to delete them.. • NOP hack warnings were added, does not automatically ban the player as sometimes desync and even /uninvite can cause them to be nop hacking if they're in the vehicle when /uninvited.. • Dynamic Impound Position • Arrest points added • /tow added • /tazer added • Group badges added • Dynamic group colours using HTML colour code format • Added 3 more group ranks • Added 6 group divisions (dynamic) • Added a group paycheque system.. Cum sa urc baza de date la un server de SA:MP? By GabiGabiHD B-Gaming (remake by me) Link download for free! RolePlay GameMode 1; 2; 3; By MrPufy.. • /phone improved • - Removed Phone Credits • Dynamic VIP System • - Five VIP levles (Bronze, Silver, Gold, Platinum, VIP Moderator) • - Bronze, Silver, Gold all last one month • Dynamic VIP interior, locker & exterior.

Read to get more acquainted with the issue in case it happens to you Download • Download (2.. Group leaders can set the pay • /setstation added • /vstore and /vtake added for storing weapons in your vehicles • /sellcar added • /unimpound in the DMV • /unimpoundplayerscar (for LSPD) • Dynamic DMV exterior • /dropweapon added for individual weapons • Car Engine system • /refill added for mechanic • /fix now requires the hood to be open, and the player outside the vehicle • /deployflares /deploycades /deploycones (/destroyflares, etc etc) added • Car slots now show up in dialogs for players, there are still some admin commands with physical slot ids needing to be entered in commands.. • Added a 'custominterior' 'customexterior' variable to most enter/exits • - This makes, when made 1, the player stream objects upon enter/exiting • Added a dynamic gate system • - /creategate, /editgate, etc • Added in a dynamic toy system • (Not to sure if this is working or not, I know I added them to clothing stores but the saving I think is a little iffy.. Only displays THREE for the admins before stopping • /stats reformed, removed inventory items from /stats and the college degrees • /inv added for inventory • All script animations removed, vactions.. Note (2 0 Only) With OnPlayerEditDynamicObject I had a weird error involving streamer which is why there are multiple callbacks with that function. [Resident Evil 3 Nemesis Pc Save Game](#)
