FAQ

This example shows macOS Catalina version 10.15 build 19A583. Which macOS version is the latest? These are all Mac operating systems, starting with the most recent. Is your Mac up to date with the latest version of the Mac operating system (macOS or OS X)? Is it using the version required by some other product that you want to use with your Mac? Which versions are earlier (older) or later (newer, more recent)? To find out, learn which version is installed now.

You should see the macOS name, such as macOS Mojave, followed by its version number. If your macOS isn't up to date, you may be able to update to a later version. Which macOS version is installed? From the Apple menu () in the corner of your screen, choose About This Mac. When a major new macOS is released, it gets a new name, such as macOS Catalina. As updates that change the macOS version number become available, this article is updated to show the latest version of that macOS. OS X Mountain Lion 10.8.5 OS X Lion 10.7.5 Mac OS X Snow Leopard 10.6.8 Mac OS X Leopard 10.
